OUR CHRISTMAS WISH TO YOU AND YOURS

It requires not the occasion of Christmas with its joys, cheer and prevalent good will, to arouse in us a sense of the appreciation due patrons of THE NEWS.

In our hearts and minds are gratitude and good thoughts for you during every day of the year; but Christmas hallows our sentiments and makes their expression fitting and timely. Such as we have accomplished and such good as may be traceable to our efforts would not have been possible without your sustaining power and co-operation. If in any sense we have upheld a beacon, you have supplied oil for the lamp. If ours has been a chariot, yours has been the motive element which has kept it on its way.

All characters appealing to or endeavoring to entertain the public, must be given a certain meed of applause or they cannot exist. With those engaged in publishing a newspaper, the applause comes in the interest which readers manifest in its columns and in an occasional word of approval. The practical help of subscribers and advertisers has enabled us to maintain a publication standard; their encouragement has furnished the degree of pleasure necessary as an incentive to our daily tasks.

May the spirit of Christmas work for you the full degree of its bountifulness. May you be enabled to get the same amount of pleasure and benefit from these columns that we have derived from making them. Working hand in hand all the departments of THE NEWS co-ordinating have helped to make it the foremost news and advertising medium of Bourbon county, and that proud eminence we propose to maintain in the coming year, with your help.

Wishing you one and all a Merry Christmas and a Happy New Year, we leave the rest to you. May you live long and prosper!

STATE ASKS AID OF CLUBWOMEN

The Women's Clubs of the Kentucky Federation are called upon to assist the State Board of Charities and Corrections in pursuance of a resolution adopted at the annual meeting which read:

"Resolved, That the Federation co-operate with the Board of Charities and Corrections in putting the State Institutions on a more humane and progressive basis."

Each club president is asked to appoint one member who is requested to give the following service:

First: Upon request of the superintendent of the House of Reform or the superintendent of the Feeble-Minded Institute to send to them such additional facts concerning the family and community history of any boy or girl who may have been committed to either of these institutions from your community. The court commitments, as a rule, are very deficient in that they do not give much information that is essential for the proper understanding and handling of the children so committed.

Second: At the request of this office, or of the institutions, to report, preceding the parole of these children, as to home and other environmental conditions; and as to their employment or schooling.

Third: To be willing to take a friendly interest in these children, when they leave the institutions on parole, reporting directly to this office any disposition on the part of these paroled children to go wrong, so that the local and unofficial influence exerted through these local agencies may be promptly supplemented by the official influence of the parole officers.

ALL SET FOR THE COMMUNITY CHRISTMAS TREE

Plans which have been under way for a week or more for the Community Christmas Tree have been practically completed, and with the exception of a few minor details, the stage is all set, and the actors ready for the production.

The program will be given in the Circuit Court room in the court house this (Friday) afternoon, beginning at 2:30 o'clock. Songs, readings, short addresses, the appearance of a real Santa Claus at a real Christmas tree and the distribution of gifts to the children will feature the proceedings. Rev. W. E. Ellis, pastor of the Paris Christian church, will have charge of the program, in which the ministers of other Paris churches will also take part. The music will be in charge of A. L. Boatright. Rev. T. S. Smylie, pastor of the Paris Presbyterian church, will deliver a short address. The arrangements are in charge of a joint committee composed of Mrs. Harriet Minaker, Visiting Nurse for the Bourbon County Health and Welfare League, C. B. Harrison, secretary of the Y. M. C. A., and Wm. E. Hatcher, secretary of the Paris Commercial Club.

In completing your Christmas purchases to-day do not fail to remember the little ones who are unfortunate, and who will not have a visit from Santa Claus, unless you contribute something to the Community Christmas Tree. This is "the day before Christmas," remember. It would be a shame, indeed, if any poor little helpless child should awaken to the realization that he or she had been forgotten. Just imagine the anguish of soul and the little choked sobs of disappointment. Think if your children were forgotten by Santa Claus. Then contribute toward the pleasure of some little one—and in the words of Tiny Tim, "God bless us every one."

RELIEF FUND CAMPAIGN PROGRESSING NICELY

The drive to raise Bourbon county's quota for the Herbert Hoover Fund to relieve the destitute children of the Far East began Wednesday morning in the city and county under the personal supervision of James M. Caldwell and Cateby Spears. The campaign will continue through to-day.

The fund was given an encouraging start when the local Red Cross Chapter donated \$500. It was also announced that the members of the Red Cross would assist in the three-day campaign in Bourbon county. The people of our city and county, who have never lagged behind in good works, especially in contributing to the relief of the suffering, either at home or abroad, will not be slow in responding to this appeal. Several clubs have already been formed for the purpose of working as separate units in the city and county taking subscriptions.

FARMER BADLY INJURED.

While sawing wood with his son, at their home on the lower Jacks-town pike, Joseph Gillispie, prominent farmer of that section sustained serious injuries about the head and face, which it is feared may prove fatal.

Mr. Gillispie and son were sawing a big log in sections. One of the sections in falling, struck Mr. Gillispie, crushing the right side of his face. Physicians summoned administered first-aid treatment, and had the injured man removed to St. Joseph's Hospital, in Lexington. An X-ray examination showed the skull fractured at the base of the brain and other serious injuries. Mr. Gillispie and son were alone at the time of the accident.

APPEAL FOR THE NEAR EAST RELIEF

Herbert Hoover, Chairman of the European Relief Council wakes the following appeal at Christmas time: "There are three and a half millions of waifs, undernourished orphans and sick children in Eastern and Central Europe, who have been since the Armistice and will be until next harvest dependent upon America, cared for in 17,000 kitchens, clinics, hospitals, and asylums helped by the charity of their own countrymen to the utmost of their ability and served by 100,000 volunteers among their own countrymen, yet the vital food, clothing and medical care must come from America. If these doors are not to close, we must have \$33,000,000 to carry on until next harvest. Is \$10.00 too much to pay for the life of a child?"

"We cannot as a nation desert this mass of suffering humanity, and for the love of children that is strong within us, this obligation falls on every American family. We ask you to receive some number of these children as invisible guests to sit with you at your family table during the holidays. We must carry to completion the greatest humanitarian effort our nation or any other nation has ever made, and no greater good can go out from our people than to seat these three and a half millions of helpless waifs in spirit at our Christmas table in the name of the American people."

"HERBERT HOOVER."

PROMISES REAL WINTER WEATHER FOR CHRISTMAS

If the weather man is to be relied on, we will have real winter weather for the Christmas season. Snow and cold weather will accompany Santa Claus to Paris, according to the weather sharps. Headed straight from the Northwest the cold wave struck Paris yesterday and sent the temperature tumbling down to a very low point. The small boy and the out-door fresh air fiends will of course welcome the cold weather, but to the average run of mortals, the prospect is anything but inviting.

TOBACCO COMING IN

Wagons and trucks loaded with tobacco, the prime product of the farms at this season, have been going through Paris at a lively rate, especially yesterday. Most of the product was destined for the local market, though several loads of the weed went to the Lexington houses.

The New Independent and Bourbon Warehouse Co.'s floors are being put in readiness for receiving and storing the tobacco, to be ready for the sales on January 4. Several of the largest loads seen here recently went through Paris yesterday. The tobacco men are fondly hoping for the best prices to obtain at the opening sales.

Some months ago, in fact, during the past summer, representatives of the Aircraft Sales and Service Co., of Dayton, and Cincinnati, visited this section, remaining several days, and giving exhibition flights over Paris and surrounding territory. They were greatly pleased with their reception, and upon leaving, vowed they would return at the very first opportunity.

A few days ago Mayor E. B. January received the following telegram from the Cincinnati headquarters of the concern:

"Cincinnati, Ohio,

"Mayor E. B. January, Paris, Ky.

"We are duly appreciative of the interest and courtesy shown our representatives when our planes were in your vicinity, therefore we intend favoring your city with a few scholarships in a course of practical aviation for some young men whom you can recommend as worthy and interested in this line. (1t) MRS. C. B. McSHANE.

The Marconi Company has announced the establishment of wireless telephone service between Ireland and Canada.

THE SMALL BOY WITH HIS FIREWORKS CELEBRATING THE COMING OF CHRISTMAS IS VERY MUCH IN EVIDENCE, DESPITE THE ORDINANCES PROHIBITING FIREWORKS ON THE CITY STREETS.

There has been a number of narrow escapes from serious injury, and several runaways have happened.

Wednesday night the combination of small boys and giant firecrackers caused two horses to run off, near the corner of Fifth and Main. The vehicles drawn by the horses were unoccupied at the time. Both bugles were completely wrecked. On Tuesday night fireworks on Main street, near Sixth stamped a horse and buggy driven by an aged colored woman, who could not control the animal. The horse ran to the corner of Fourth and Main, where a pedestrian stepped him. No damage was done. The old woman was almost paralyzed from fright.

The city is expected to be filled more or less this week with shoppers and visitors, and the danger of accidents from runaway horses will be the greater. While the police appreciate the spirit of the small boys regarding the approach of the holidays, they ask that care be taken in handling fireworks, and that the ordinance be more carefully observed.

THE FIRE DEPARTMENT ISSUES CHRISTMAS WARNING

The warning, or plea, rather, of the Paris Fire Department, asking parents not to leave children alone with Christmas trees on which candles are burning has been issued as the years go by. Reports show that these yearly warnings, coupled with the almost general use of the electric light, are reducing the number of fires caused by negligence. Nevertheless candles will be used in many Paris homes this Christmas, and the fact that a Christmas tree is decorated bespeaks the presence of children. And it is a well-known fact that fire has an attraction for them.

Fire Chief McCracken agrees with the State Fire Prevention Bureau that the warning cannot be too much. During the holidays the fire department will keep a sharper watch than usual, realizing the added danger from fireworks, Christmas trees, etc. Past events have proved that children cannot be too closely watched around Christmas time, when they are in a state of excitement. In nine homes out of ten the Christmas tree is in the parlor near a lace curtain. It requires only a small blaze to ignite the curtain, and with it fire, and possibly a tragedy.

Fire Chief McCracken asks the people of Paris to use extra care about their stores and premises during the holidays. A little spark in an unguarded moment may cause an enormous property loss and possibly loss of life.

A GARLAND HEATER IS JUST THE TRICK

Why worry about what to buy for a Christmas gift. You need a gas stove any way. Buy one for mother's Christmas gift. The whole family will enjoy and get the benefit of it, too. When it comes to stoves a Garland settles the argument. We have a large stock of all sizes.

EDITORIAL FLINGS OF THIS.

THAT TEN TOTTER

A Kentucky preacher says that women are taking up the vices the men are discarding. Well, they ought to get to Heaven with little trouble if they adopt none but those discarded by the men.

There are some Paris people who rejoice every time they see a Christmas tree, and there are others who take to lamenting the robbing of the forests. Tell us which kind you are, and we'll fill out the details.

Some scientists say low mentality is the cause of both crime and vice. When a fellow wins \$100 from you at poker you feel that it is a crime, yet you don't believe he collected that \$100 because of his low mentality.

A Paris housekeeper, whose peace of mind has been disturbed by the frequent comings and goings of cooks, gave vent Sunday to this plaint: "When cooking can be done by wireless maybe the S. O. S. of the distressed housekeeper will get a response from a class disinclined personally to superintend the range."

Senator Beckham has congratulated Senator-elect Ernst, grudgingly, and a little late in the day, perhaps, but still sufficient for the purpose. But why should there be much comment over that? Many unkind things have been said and written about Beckham, but nobody calls him a fool.

There is nothing in the world so useless that it does not require some attention at some time. Even a wrist watch has to be wound up at intervals. But this does not apply to those people who read out loud the titles on the movie screen. They do not need to be wound up, they are always that way. Isn't it a pity they cannot realize what an insufferable nuisance they are?

PARIS PROSPERITY POETRY

Boost your city, boost your friend,
Boost the lodge that you attend;
Boost the street on which you're dwelling.
Boost the goods that you are selling;
Boost the people 'round about you,
They can get along without you;
But success will quickly find them:
If they know that you're behind them.
Boost for every forward movement,
Boost for every improvement;
Boost the man for whom you labor,
Boost the manager and the neighbor;
Cease to be a chronic kicker;
Cease to be a progress blocker;
If you'd make our city better,
Boost it to the final letter!

PAY TEACHERS PROMPTLY. COLVIN WRITES BOARDS

"Every board of education in Kentucky has financial resources and credit enabling it to pay its teachers promptly, and every board should do its full duty in this matter," is the sum and substance of a letter mailed to county boards of education by Superintendent of Public Instruction George Colvin.

Superintendent Colvin has received information that some of the county school superintendents have not been paying the teachers promptly. The teacher's pay at best, he says, is so meager that there should not be any unnecessary delay or indifference in paying them promptly, and declares that when necessary the board should borrow money to pay the teachers promptly.

PARIS TESTIMONY

Home Proof, Here, There and Everywhere

When you see Doan's Kidney Pills recommended in this paper you most always find the recommender a Paris resident. It's the same everywhere—in 3,800 towns in the U. S. Fifty thousand people publicly thank Doan's. What other kidney remedy can give this proof of merit, honesty and truth? Home testimony must be true or it could not be published here. Read this Paris recommendation. Then insist on having Doan's. You will know what you are getting. O. T. Sprake, contractor and carpenter, 304 Main street, says: "I have been a sufferer from kidney trouble for many years, but Doan's Kidney Pills is the best medicine I have ever been able to find. They always give me fine relief and I can't recommend them too highly. I have been in bad shape at times and backache caused me to lay off work for several days. I was greatly annoyed by the frequent passage of the kidney secretions which contained a sandy sediment. Whenever I have any need for such medicine I use Doan's Kidney Pills and it doesn't take them long to fix me up in good shape."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sprake had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

L. & N. RETRENCHING.

A large number of trackmen, including several in Paris, as well as several in other departments in the local service, have been laid off temporarily on this division of the Louisville and Nashville. On some sections the force has been reduced a small number. The action was taken because of the annual appropriation for workmen's pay having been exhausted. The men will likely be restored to their positions in a short time after the next year opens.

MOTORISTS SHOULD BE MORE CAREFUL

"Having the right of way" said a Paris auto dealer Wednesday, "does not relieve a motorist from the responsibility of exercising vigilance while driving. He should remember another motorist, coming down a side street, may have the same idea, and that it will be too late to argue with him after the accident occurs. Cemeteries contain many graves where motorists with the 'right-of-way' lie buried."

"Another thing I have noticed," he added, "is that barely one-fourth of Paris motorists sound their horns when approaching a crossing. They want to see the pedestrians jump, evidently."

FORMER KENTUCKIAN DECORATED BY FRENCH

Brigadier General Henry T. Allen, formerly of Sharpsburg, Ky., commander of the American Rhineland forces, has been decorated by General Degoutte, of the French army as a guard commander of the Legion of Honor. The citation accompanying the award was as follows: "A general officer of eminent qualities, who after having brilliantly commanded the Nineteenth Division of the United States army during the Meuse operations and then the Eighth Corps in the field, was, in consequence of his eminent services, placed in command of the American forces in Germany. He has served in all his high capacities with the greatest distinction, and by his lofty ideals and high moral qualities contributed to render even closer bonds in which American army and the allied armies are united in their mission on the Rhine."

HOLIDAY RUSH UNDER WAY AT POSTOFFICE

The interior of the Paris postoffice yesterday looked like a freight warehouse or some place where an "old hoss" sale was being conducted. Packages of every conceivable shape and size filled the big rooms from incoming and for outgoing trains, and an augmented force of postal employees were working like Turks to clear away the accumulation. Preparations had been made some time ago to handle the expected rush of business and matters were working very smoothly. The rush will continue to-day and far into the night.

Thesame degree of carelessness, despite the warnings given, that has characterized the sending of presents heretofore, exist according to postoffice employees. Some of the addresses are scarcely intelligibly written, and what their fate will be cannot be foretold.

Put your name and return address on the outside of every package, even twice will do no harm, and then again on the inside. Then in case of accident the package, as well as the money it represents, will not be lost. Every year there are thousands of hearts saddened and thousands of packages lost, due to carelessness in addressing and properly marking by the senders.

NOTICE TO THE PUBLIC

In conformity to the Postal Laws and Regulations to-morrow, Saturday, December 25, will be observed as a legal holiday at the Paris postoffice. There will be one complete delivery of all classes of mail matter in the morning. There will be a full delivery of mail by the rural carriers. There will be one general collection of mail in the morning and one in the afternoon. The general delivery, stamp and parcel post windows will be open from 11:00 a. m. to 12:30 p. m. No business whatever will be transacted in the money order, postal savings or registry departments.

OUT OF THE PAST

On December 24, 1904, Col. John Givens Craddock, dear of the Paris press, and one of the most noted newspaper men of the State died after a long illness. Probably no man in the newspaper game in Kentucky was more widely known. Despite his eccentricities, Col. Craddock was a man of generous impulses and was a large contributor to charity. Everybody in Paris and Bourbon county knew Col. Craddock, and his fame extended even beyond the confines of the State. The anecdotes told of his career, would fill a large-sized volume, and would make interesting reading.

Of the newspaper men who officiated at Col. Craddock's funeral on December 26, 1904, as pall-bearers, two are dead, Chas. D. Webb and F. L. McChesney. Two others, Hopson Lowry and J. T. Pryor, have since moved away, the former being a linotype operator on the Lexington Herald, and the latter being engaged in the newspaper business in Dallas, Texas. Bruce Miller, Swift Champ, Charles W. Fothergill and Wm. Remington are still residents of Paris.

PARIS ATTORNEYS REMEMBERED WITH HANDSOME GIFTS

Three solid gold fountain pens were presented to Robert Franklin, Robert Talbott and Virgil Chapman, members of the law firm of Franklin, Talbott & Chapman, Tuesday afternoon by members of the Lexington Fire Department as token of appreciation of the members of the department for services rendered them in their fight for the two platoon systems, which was overwhelmingly passed at the last election.

When the action of the fire department was first proposed, several of its members called at the offices of Franklin, Talbott & Chapman and asked them to draw up the amendment providing for the two platoons as it should be presented to the voters of the city.

Following its passage, the attorneys refused to accept any fee for their services. Tuesday afternoon, a committee of the fire department composed of T. H. Bowman, M. M. White and Raymond Sharp called at the offices of the law firm and presented each of the members with a solid gold fountain pen, each being engraved with the name of the one receiving it and bearing the inscription "From the Members of the Lexington Fire Department."

INMATES OF INFIRMARY TO BE REMEMBERED

Following a beautiful custom inaugurated many years ago a committee of Paris and Bourbon county ladies, representing all the denominations and many of the charitable organizations, will see that the inmates of the County Infirmary are well-remembered while the good cheer of Christmas time is at hand.

The committee will pay a visit to the institution Christmas day, taking with them a box of good things for each one of the dwellers at the Infirmary. Many of the old people at the infirmary are practically friendless with no one to remember them at this glad season, and while a bountiful dinner is always provided for them by the authorities, yet it means so much to them in their loneliness to know that they are not entirely forgotten by the outside world. They have learned to look forward with eagerness to this Christmas visit and to the individual boxes that are given for their enjoyment, and it would be cruel to disappoint them.

Boxes already filled, or good things to be used by the committee in filling them, may be left at the home of Mrs. William Myall, 14 Eleventh street, to-day, and before Saturday morning.

HANCOCK RETURNS FROM NEW YORK MEETING

Arthur B. Hancock, of Paris, who represented the Thoroughbred Endurance Test Club at the meeting in New York of horsemen representing the various organizations sponsoring the 300-mile test race, has returned, bringing details of next year's race.

The route of the horses in the cavalry endurance test of 1921 will be from New York or West Point to Washington if suitable roads and stables can be located. Major Stanley Koch, who rode the winner of this year's endurance test; Dr. Howard Stout Neilson, of the Arabian Horse Club, who rode the winner of last year's race, and George Ford Morris, secretary of the National Saddle Horse Club, were chosen to look out a line of march and they expect to begin work at once, so that all arrangements may be made known to prospective contestants soon after the beginning of the new year.

GOES 70 MILES FOR MORE TANLAC

Gained 17 Pounds And Her Wonderful Improvement Is The Talk Of The Neighborhood

"It's no wonder that everybody sees a change in mother since she began taking Tanlac, for she has gained seventeen pounds and can get about better than for the last twenty-five years," recently declared T. E. Ellis, well-known live-stock dealer, living at Rumsey, Ky.

"My mother is now sixty-eight years old and for eight years had suffered from loss of appetite, nervousness, constant headaches, severe pains in the chest and back and frequent spells of dizziness. She became so bad off about five years ago that she had to give up all housework, and spent most of her time in bed. During all that time she neither knew what it was to have a well day or a night's rest, and her condition became so alarming that we never expected to see her up and about again.

"One day she read in the papers about someone who had been greatly helped by Tanlac, and nothing would satisfy her until she had tried it herself. So I drove 35 miles to Evansville and got her a bottle. She had four more bottles since then and she has actually gained seventeen pounds in weight, and its years since I saw her looking so well. She praises Tanlac all day long, and her remarkable recovery has made such a stir around Rumsey that scores of other sick people have been taking Tanlac with splendid results. I make trip to Evansville every week and always carry back a load of Tanlac for the neighbors. We all think there is no medicine like it, and I'm glad of this chance of telling everybody about what it did for my mother." Tanlac is sold in Paris at the People's Pharmacy. (adv)

FULLEST OF MOONS DUE ON CHRISTMAS NIGHT

If the skies are clear on December 25, it will be worth while to gaze at the moon.

The phenomena will consist of the moon's closest approach to the earth. In other words, the moon will be in perigee, i. e., the moon is full at its closest approach to the earth, only about 221,000 miles away, when it might occur with the moon 260,000 miles distant. This happens only seldom in a lifetime.

WHAT ARE YOUR CHANCES OF SUCCESS?

Do You Step Out With Snap And
Vigor? Are You Able To Get
Things Done?

DON'T STAND IN YOUR OWN WAY

People With Thin, Weak Blood Have
a Hard Time Of It—They Should
Take Pepto-Mangan

Look at the facts of your health. So much depends on having red blood. If you stand up in front of your work with half-starved blood in your system you are standing in your own way. You are blocking your own progress.

This blood makes you dull. It makes you pale. You get no enjoyment out of your work. It is only half as good as it should be.

You can remedy that condition so easily. Begin taking that fine tonic, Pepto-Mangan, to-day and keep it up for awhile. Your blood will become nourished. Pepto-Mangan makes red blood corpuscles. You will get energy and strong power of resistance. Instead of standing in your own way, you will push yourself ahead because of greater vitality.

But be sure you get the genuine Pepto-Mangan. It is put up in both liquid and tablet form. Ask for "Gude's" and be sure that the name is on the package. The tablets or the liquid have the same medicinal value. (adv)

In the above-mentioned case the order as entered reads as follows: Renick vs. Mann, Bourbon, appellee entered appearance herein; agreement filed; appellant granted to January 20, 1928, and appellee sixty days thereafter to file brief.

FRIEND OR CURSE?

Both Designations Have Been
Bestowed on Sleep.

Truth is That the Hours of Slumber
Can Be Made Subservient to
the Firm Will.

Sleep, at the right time, is one of man's foremost friends and benefactors; at the wrong time it is a curse, for it comes as the paralyzing incubus upon his hand and his mind when he should be broad awake and at his work, declares a writer in the Philadelphia Ledger.

It is a solemn thing to think about, that if we average eight hours of every twenty-four in slumber we are in the Land of Nod for a third of our whole term on earth. At this rate the man who lives to the age of 60 has spent twenty years in bed.

It has made some active spirits irate against nature and the established order that they should have to spend so much time unconscious and unproductive; the idleness has lured them; and burning the candle at both ends in their defiance of physiological laws they have generally paid for it. The rule is that we rest now that we may form habits of sloth and self-indulgence, but that we may find recreation and recuperation for the day that follows night—the day that tests our mettle, and urges to endeavor. Sleep is supposed to send us back into the fray clear eyed, serene, corroborated. "I elude when I lie down," said that poet of the mystics, Henry Vaughan, and by it he meant that his finite mortality had risen star by star till it laid hold upon infinity. The apparent humility was an aspiration. He stood at heaven's gate not by the pride of life, not by self-assertion, not by being egocentric, but in the mortification of vanity and with all "chastening and subduing of the soul."

Mark Twain and Robert Louis Stevenson were two of no small number of writers who wrote in bed because of the comfortable relaxation and the seclusion. The wits of neither were benumbed, and you could not call either of these prolific and successful authors lazy. But it does not follow that their mimic in respect to a recumbent posture for authorship will succeed in copying their happy graces in the way of a literary style.

The strong man seeks a workroom, not a resting place. He stays at work till his work is done. He trains himself—with an Edison—not to let himself sleep till he has tracked the shy idea he is hunting to its lair. Men who have followed an engineering career afield—men who have fought a war—men who have sailed a ship through a storm—men of action in all times and places—can (if they will) tell us how they have made sleep subservient to their own iron wills. They have done their duty and let the respite wait till the task was ended and the wage was earned.

Boy Gave World Lamp Chimney.

The lamp chimney of today was given to the world through the misbehavior of a small boy. The first lamp having an air chamber was invented by a Swiss, Jules Argand. A wick was introduced into a hollow tube and the tube inset into the lamp. As this allowed oxygen to enter the base a much brighter flame was given than by any lamp then in use. Jules had a small brother and as small boys of that day were very like the small boys of today, Jules was instructed to watch him, and especially to look out for fire and little fingers.

Jules remembered his instructions but a few minutes and then became so busy that his little brother quite passed from his mind. He was bending over a bench, straining his eyes to see some minor defects in his work, when suddenly the room became much brighter. Jules turned and discovered the boy with a bottomless oil flask which he had lowered over the wick of the lamp. The flame had leaped up the long circular neck of the flask with greatly increased brilliancy. Argand instantly saw the possibilities before him and the modern lamp chimney was born.

Considerably Mixed.

We bought him for \$5 from a little negro boy, thinking he was a full-blooded Boston bull pup. Like many bargains, he hasn't turned out so well, but he possesses all the "cuddly" qualities and clever puppy ways that would endear him to little Elizabeth, and she is very fond of him.

One day she was telling an aunt some of the cute things that the little dog had done. Auntie wasn't diplomatic; she touched on a tender spot.

"What kind of a dog is he, Elizabeth?" she asked.

"Well, auntie—I think he's partly bull dog—and well—and the rest puppy," was the little champion's reply.—Chicago Tribune.

Death Valley Temperature.

At Greenland ranch, in Death valley, California, the air temperature, as recorded by a tested maximum thermometer exposed in a standard instrument shelter, rose to 100 degrees or higher on 23 days during June, and on every day during July, 1920, says a bulletin of the American Meteorological society. The extreme maximum was 125 degrees, recorded on the last day of July. On July 19, 1913, the temperature there reached 134 degrees Fahrenheit, the highest officially recorded air temperature in the world.
